

Product Name Premium Matte Paper
Product Code MP240B

Features

- * Accurate Color Reproduction
- * Instant Dry
- * 240 gsm, 260 um, Matte Finish
- * Be widely used in Posters, Trade Show Graphics, Fine Art, POP displays.
- * Advanced Coating for color excellence

Overview

Premium Matte Paper was developed for accurate color reproduction. It provides the high ink-load retention needed for saturated colors, quality images, and brilliant colors. Yet this fast-drying paper also works well with thermal laminating films, making this paper ideal for producing high-impact graphics that will be laminated. It is often used by shops who want a low-cost way to produce high volumes of POP displays.

Premium Matte Paper works with dye or pigment inks and thermal and piezo printheads.

Specifications

Weight	240 g/m ²
Thickness	260 microns/10.24 mil
Opacity	> 98.00%
Whiteness	> 108.00%
Finish	Matte
Width	Available in rolls with a width up to 1830 mm
Length	Available in rolls with a length up to 3,000 meter
Core Size	3 inch
Printing Technology	Compatible with all thermal and piezo inkjet printers using water-based dye and pigment-based inks.
